VISITOR GUIDE

MODENA

belotti INNOVATION HUB

WELCOME

belotti INNOVATION HUB

Where **innovation** moves forward

Belotti Innovation HUB is our cutting-edge technology center dedicated to fostering the **experimentation**, **development**, and implementation of **innovative technologies** to streamline and improve milling and trimming processes on advanced materials.

Located in Modena (Italy) – in the heart of the Motor Valley – the Innovation HUB serves as a **center of excellence** where our technical expertise converges with top-tier technologies and the specialized knowledge of industrial partners/suppliers. Together, we drive the development of innovative solutions and accelerate the adoption of emerging technologies that meet the evolving production demands of modern companies.

Production, testing, and innovation find space within a single structure, complemented by an electro-spindles repair department, and multi-purpose areas, being the perfect place for **knowledge sharing**, **cooperation**, and **networking**.

A unique place where innovation moves forward!
